THE CAFFEINE GEL (neo-6-c2) is extremely rich in draining and slimming ingredients:

Its formulation is **ECOLOGICAL & BIO** (bio.inspecta reference)

- Vegetable raw materials, minimum 95% of biological products (Organic Chamomile Hydrolat, Grape Leaves Extract, Hibiscus Extract ...)
- Without perfumes or synthetic dyes
- Total exclusion of synthetic preservatives such as parabens or phenoxyethanol (Preservative: potassium sorbate, sodium benzoate)
- Petrochemical free (paraffin, silicone, PEG)
- GMO-free (genetically modified organisms)
- No ionizing treatments

Selection of exclusive assets:

Organic Chamomile Hydrolat:

Chamomile owes its status as a therapeutic plant to Italian monks of the sixteenth century, who highlighted its ability to calm skin irritation.

Caffeine powder:

Pure and anhydrous natural caffeine comes from Arabica and Robusta coffee beans. It activates ATP and skin microcirculation. It increases lipolysis and therefore has an anti-cellulite effect.

Drenalip® (astragalus extract, small holly, lemon and solidage):

Complex composed of 4 ingredients (of vegetable origin). It has lipolytic properties, activating microcirculation, anti-edema, anti-cellulite and slimming.

Grape leaf extract:

It contains at least 0.2% polyphenols. It has astringent properties and antioxidant activity.

Hibiscus extract:

It is rich in anthocyanosides. It has firming properties, and increases skin elasticity.

Organic, economical and ecological product
