

# Adaptive sheet

## ADAPTIVE

ADAPTIVE APAISANT/ANTI ROUGEURS  
(ADAPTIVE SOOTHING/ANTI REDNESS)

What is an adaptive?

It is a concentrate of cosmetic ingredients, to be added to your skin care routine every day, in a few drops. This adaptive is a stem cell extract of plant origin.

### Features

It can be used to reinforce the soothing and anti-redness action of your care

### Did you know that?

Globularia cordifolia is an evergreen perennial which, despite its small size, has all the makings of a great perennial!

The stem cells of this extract are obtained in the laboratory, from the biological material of the plant (taken once and only once). This culture does not affect the environment.

## Information

Helps to reduce the level of local micro-inflammation. Reduces skin redness and improves the skin's natural glow. The skin is soothed and radiates beauty.

High-tech Adaptive, derived from *Globularia cordifolia* stem cells. It helps the skin to reduce the level of substances that cause micro-inflammatory processes.
