ADAPTIVE

GLYCOLIC ACID

What is an adaptive?

It is a concentrate of cosmetic ingredients, to be added every day in your care, at a rate of a few drops. This adaptive is a glycolic acid, it promotes the renewal of the epidermis

Features

- Improves the appearance of sun-damaged skin and fights skin aging.
- Reveals smoother, brighter skin, more supple, with less pigmentation and less irregularity.
- Promotes the skin's cycle

Did you know that?

Glycolic acid is ideal for use in a variety of personal care products. Whether it is for the skin or hair.

Information

Glycolic acid is designed to reduce the signs of aging. For hydration and skin brightening, as well as acne treatment.

When used in cosmetic formulations, glycolic acid effectively penetrates the skin and stimulates cellular activity. It moisturizes the stratum corneum to alleviate skin dryness and flaking. Scaling can readjust the percentage of water in the epidermis, resulting in smoother, softer and more radiant skin.

How to use it
