

Adaptive sheet

ADAPTIVE

CELLULE SOUCHE DE ROSE DES ALPES
(STEM CELL OF ALPINE ROSE)

What is an adaptive?

It is a concentrate of cosmetic ingredients, to be added to your daily skincare routine in a few drops. This adaptive contains the Alpine rose stem cell, which promotes and stimulates the beauty of your skin.

Features

- Increases the vitality of the skin's stem cells
- Stimulates epidermal regeneration
- Improves the skin's barrier function
- Helps the skin to cope with climate changes

Did you know that?

- The Alpine rose is an evergreen plant that grows at high altitude (2000m) in the Alps, but also in the Jura, Pyrenees...

The stem cell of alpine rose is based on the plant cells, that is to say :

- The ability that each plant cell regenerates new organs or even the whole plant.

- The ability that each plant cell has to differentiate and become a stem cell.

Mechanism of action of the alpine rose stem cell

Information
