## ADAPTIVE

MULTI-PEPTIDES MATRIX

What is an adaptive?

It is a concentrate of cosmetic ingredients, to be added every day to your skin care, at a rate of a few drops. This adaptive is a multi-peptide matrix, which helps activate the skin's repair process.

### Features

It can be used as an anti-wrinkle booster.  
It restores the skin's metabolism and its youthfulness.

### Did you know that?

Multi-peptide matrix, regulates the expression of progerin, a senescence marker known to accumulate with age, while maintaining its normal form, lamin A. Matrikines are messenger peptides capable of regulating cellular activities by interacting with their specific receptors. They activate certain genes involved in the process of extracellular matrix renewal and cell proliferation. These mechanisms become weaker with age.

## Information

This adaptive promotes the activation of the the skin repair process, especially in the fragile in the fragile and UV-sensitive papillary dermis. Thus, it favors the smoothing of wrinkles and improves tone and elasticity.
