LIPOREDUCE

ADIPODUCE

Informations

The Adaptives are mixtures of active concentrates obtained by green biotechnology, to boost your cosmetic care.

Liporeduce is a mixture of active ingredients that acts synergistically to promote Lipolysis, increase the pool of cAMP while the co-enzyme A, activates the combustion of fatty acids.

Adipoduce is an adaptive which, by inhibiting the activity of MMP9, limits the process of adipogenesis (differentiation of adipocytes and neo-vascularization). It thus prevents the formation of new fat.

Liporeduce is a product which combines a synergy of active ingredients to fight against "orange peel skin".

Adipoduce is a product which combines a synergy of active ingredients to fight against "the return of fat cells".

Features

This ADAPTIVE slimming set is composed of three products: 1 body product of your choice, the adaptive LIPOREDUCE and the adaptive ADIPODUCE.

First, it is necessary to use LIPOREDUCE over a period of 30 days to **reduce the size of fat cells**.

Secondly, take advantage of ADIPODUCE over a period of 30 days to **prevent the formation of new adipocytes**.

Adipocytes

Cells that are in the fatty tissue.
In adults, the adipose tissue represents 15 to 20% of the weight

PHASE 1

30 days

PHASE 2

30 days

Or 60 days of application

Did you know that?

Liporeduce fights cellulite by stimulating lipid catabolism, a process that eliminates excess fat stored in the adipocytes.

- Greater bioavailability
- Better absorbability
- Increased stability
- Targeted transport

Adipoduce fights the return of adipocytes, and prevents the recruitment of new adipocytes via an anti-adipogenesis action, and therefore it inhibits the formation of new fat.

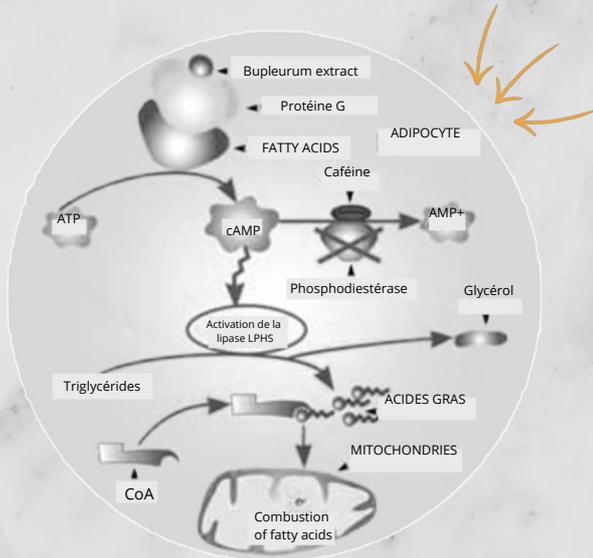

ANTI-ADIPOGENESIS EFFECT:

Prevents the recruitment of new adipocytes thanks to its anti-MMP9 effect (signal promoting the formation of adipose tissue)

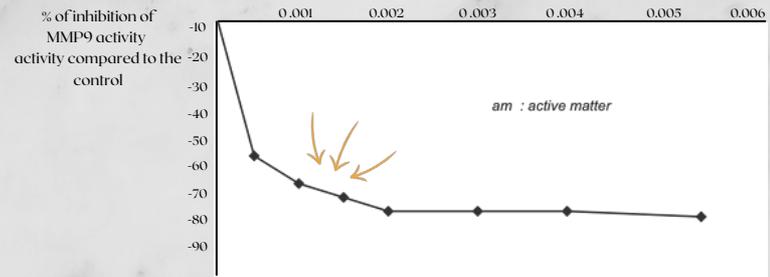

Innovative and high quality assets

LIPOREDUCE Skin appearance

ADIPODUCE efficiency as a function of the % added

INCI:

Butylene Glycol - PEG-8 - Bupleurum falcatum Root (extract) - Caffeine - Coenzyme A

Origine :

Biotechnologie

Appearance :

Light brown liquid

INCI:

Butylene Glycol - Chenopodium Quinoa Seed Extract

Origine :

Biotechnologie

Appearance :

Light brwxn liquid

Frequency and area of application

Twice a day / body
Corps

How to use it ?

Apply 3 or 4 drops in your cream and mix with your hand to apply it directly on your skin.
